

North Shore Community College

Anatomy and Physiology II

SCHEDULE – Fall 2025 – NSCC – Bio 212 O03

NOTE: the lowest exam grade may be dropped, except the last three exams:

- Male Repro System
- Female Repro System
- 2nd Lab Practical

Below is a tentative but probable schedule of topics and dates. The schedule may be modified according to the progress of the lecture or unforeseen circumstances.

Module
DATES

Exam Administration - Exams are administered on Blackboard and are proctored by the NSCC Testing Center. Exams are available during regular hours of operation of the testing center.

Register Blast – The student must register to take all exams with the testing center in a timely manner using the [Registerblast](#) website. Do this at least a week in advance of any exam date.

Exam Availability - Note that exams are available for TWO days from the start dates below. For example, your first exam is scheduled for September 18 (Mon); therefore, the exam will be available from September 18 – 19.

Testing Center Hours – Click [HERE](#) to view the “Zoom Testing” and “On Campus Testing” hours.
